

Peg and Pog

Welcome to *Peg and Pog*, an immersive play adventure that helps children build early vocabulary and become familiar with the world around them. Build animated scenes full of characters, animals, and objects with over 170 words and a choice of 5 languages. Pretend play at a birthday party, travel into space, play dress up with hundreds of possible outfits, and much more!

How to play

Build and interact with each scene by dragging and dropping characters, animals and objects. Think and talk about where objects and characters go: the astronauts go in the rocket; the octopus goes in the sea; the food goes in the shopping basket.

Tap on a character, animal or object to listen to the word and hear its sound. To see how the words are spelled and sound, tap on the slideshow button.

Ocean

Take a deep breath and meet some creatures that live in the ocean.

In the app

Try moving the animals to the surface to see what happens. The submarine periscope will activate if it is near the surface. Peg and Pog can only hold their breathe for so long!

To talk about

Some of the creatures need to surface to breathe and others need to stay underwater. What other sea creatures do you know already? Point out some features of creatures that live on land like us, and creatures that live in the sea. Why are Peg and Pog wearing flippers? What is a snorkel for?

Polar explorers

Meet the animals that live in some of the coldest regions of the world and let a perky penguin help you out along the way.

In the app

Don't forget to let go of the perky penguin when you are launching him at the ice. Tap the husky to stop or start.

To talk about

Which animals do you know already? Why are Peg and Pog dressed up like that? How do you think the animals stay warm? Talk about how the colour of the animals can help them survive.

Did you know that penguins live in the Antarctic and polar bears live in the Arctic? Pete the perky penguin must have travelled a long way to help out!

Space travellers

Travel with Peg and Pog as they journey into space.

In the app

In outer space, touch the rocket to stop or start.

To talk about

Do you know your numbers up to 10? Can you say them backwards? Have a go at joining in with the countdown then try to do it without the sound.

Talk about things you can see in the sky during the day, and what you can see at night.

Pretend you are an astronaut floating in space like Cosmo, or walking on the Moon.

Bedroom

Rise and shine! It's time to help Peg and Pog tidy their bedroom, or not!

In the app

Place the rocket in the middle of the rug to make it go higher.
Tap the radio to listen to some music.

To talk about

Try figuring out which toys fit on which shelves and which ones don't. Then try to see if you figured it out correctly.

Dressing up

Peg and Pog just love dressing up. Pick out some new outfits and disguises for them, then take a photo. But where is Cosmo?

In the app

Change hairstyle by tapping on Peg or Pog's hair. Tap the camera button to take a photo. Watch out for Cosmo!

To talk about

How do you think Peg and Pog feel about the items you have picked out for them?

Are they happy or sad when you take a photo? Guess if Cosmo will show up, and if so, what do you think he will be wearing?

Try to dress Peg and Pog for going to bed or going to a birthday party. And better still, why not join in all the fun with your own dressing up box?

Savannah

Meet some of the animals that live on the African savannah as Peg and Pog fly in a hot-air balloon.

In the app

When Cosmo appears, tap on him to stop or start. You can make it rain by tapping on a cloud.

To talk about

You may know some of these animals already, but are there any you didn't know? Can you guess what sound they make? Which is your favourite animal noise? Did you know that the cheetah is the fastest land animal in the world?

Store

Time to pick up a few groceries from the local store.

In the app

Please keep the place tidy and don't forget to turn the radio on for some atmosphere!

To talk about

What foods do you recognise from your local store? Which foods don't you know? Go shopping for breakfast, a picnic or a birthday party, but be careful not to forget anything.

bread

Birthday party

It's Pinki's birthday! Tap on Cosmo to play or stop the music. Drag and drop the instruments onto the characters and they will play along to the music.

The characters can be made to eat and drink by carefully placing the food and drink. Yes, just as in real life, it is perhaps not the best idea to drink and eat at the same time as dancing!

In the app

If the stage is busy, use the loud speakers above to start or stop the music. Don't forget the bubble machine and watch out for some awesome guitar playing!

To talk about

What other instruments do you know? Talk about the music. Is it fast? Is it slow? How does it make you feel?

Have a go at clapping in time to the music.

Why not copy your favourite character and join in the fun yourself?

Why not?

Why not try another language? Starting to learn another language can very rewarding and great fun too.

In your control panel you can easily change the spoken language by visiting the Settings section.

Control Panel

To access your control panel first open up the app on your device. On the title screen you will find the 'Parents' button on the top left. Tap the button and follow the instructions on the 'Parental Gate'.

Preferences

In the control panel you can change your preferences for sounds and spoken languages.

Keep in touch

You can keep up to date with the latest app news by signing up for our occasional newsletter, or by following us on Facebook, Pinterest or Twitter.

We love to hear from parents, so please reach out to us through our [website](#). If you like our app, please take moment to leave a review in the App Store. Thank you!

Have fun! Ken Rutherford, CEO
